## INTRODUCTION

Have you ever noticed how an address quite often perfectly reflects the shape and ethos of the business it houses?

The Business Address Report analyses the kind of influence an address or a number, or a combination of both, has on the human psyche. By doing so, it will help you choose the right address for your business.

The Business address Report Advisor uses 3 to 4 topics.

The Dominant Impression explains the initial and most strongly felt influence of a name.

The Vowel Vibration focuses on the vowel sounds.

The Base Vibration, which could be considered an underlying tone or rhythm, can apply to names as well as numbers - such as telephone numbers or social security numbers.

The Overview section tells you about the relationship between the different vibrations.

Although two addresses can easily have a similar - even identical - Dominant Impression, the chance of two addresses also having the same Vowel and Base vibrations is much smaller. Certainly the most important aspect to consider, is how the first three main influences fit together. The Overview, therefore, is as important, if not more important, as the other sections when considering an address.

However, don't focus only on getting the highest rating of stars. Use your own analytical powers. Think about the two or three different vibrations. Does it feel suitable for the business you are operating or beginning? If you are starting your own accounting firm, you should look for an address that reflects dependability, trustworthiness, stability, even if that address is also described as boring and rigid.

On the other hand, if you are looking for a address for a store selling camping gear and scuba diving lessons, you want an address that conveys a dynamic, risk-taking, freedom-loving nature.

When you look at the results of addresses you entered - and the program subsequently examined - you need to keep a few things in mind:  
Who, or what, is the address for?

There is no such thing as a perfect address. Each and every address, number, or combination of both, will have some negative as well as some positive attributes. Make the address "it" the person or thing. Don't look specifically for "money and power" or "fame and fortune." Keep in mind that when it comes to quality of life, happiness is the bottom line.
